

Checking Grades for HCC Online Courses

Beginning with the Summer 2017 semester, all activity grades for online courses are located in Moodle.

Please review the directions below to learn how to monitor your activity scores and current course grade.

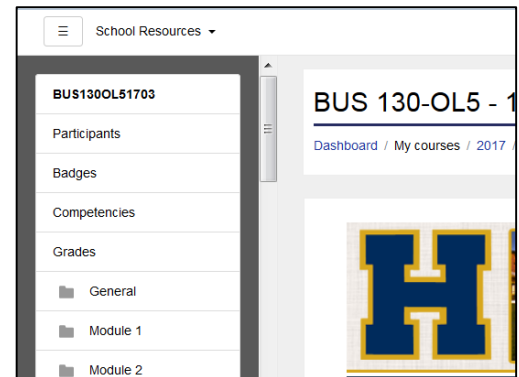

Grades: How to View Grades in Moodle

Your grades for each assignment or activity in a course will show together in a list called the **User Report**. It should also include the final grade for your course.

Accessing the User Report

1. Locate the **Navigation Panel**.

The **Navigation Panel** is located on the left side of the Moodle screen. If it is not viewable, it may be docked. Click the button with three horizontal bars at the top of the screen and the directory will appear.

2. Click on the **Grades** option located under the course name to visit the **User Report**. Graded items from your course are available. You will need to contact your instructor regarding any missing grades or graded items.

Grades Page

The **Grades** page displays a list of all courses you are enrolled in and your current grade in each course. To access it, click on your name in the upper-right corner of any page and choose **Grades** from the drop-down menu.

Clicking on a course from the **Grades** page will take you to the **User Report** for that course.
